Chances of my antenna reaching you is pretty slim.  
I don't have a rotating antenna on a tower.  
I remember the RMs aboard ship in the '50s Coping code, talking to their buddies, drinking a  
cup of coffee and getting perfect copy.

It was mostly five character encrypted groups.  
Headphones were hard baklite.  
I took my hat off to those young men all in their early 20s.

It was great to have run across you guys on the net this morning!  
Thanks for a great QSO and hopefully,  
I'll be awake early enough to do it again.

73,

Dan
